

**NICK, 54,
CURRENT SMOKER:**

 ROY CASTLE
LUNG CANCER
FOUNDATION
SPOT THE DIFFERENCE

**SYMPTOMS: PERSISTENT COUGH
BACK PAIN**

**DURATION OF
SYMPTOMS: TWO YEARS**

DIAGNOSIS: STAGE 3 LUNG CANCER

We know the majority of cases like Nick's won't be lung cancer but if you see a patient who is displaying any of these symptoms, it is important to consider lung cancer and refer for x-ray where appropriate.

Our online toolkit can help you spot potential lung cancer symptoms.
