

ROY CASTLE
LUNG CANCER
FOUNDATION

**Thanks to the
check, my
lung cancer
was caught
really early**

**I didn't even
have any
symptoms.**

Targeted Lung
Health Check
Programme

I felt fine.

**I didn't have a cough.
I wasn't short of breath**

**But because I smoked,
I thought it was a good
idea to go for the lung
check.**

And I'm so glad I did.

**If you're aged 55-74 and have
ever smoked, make sure you
get your lungs checked -
even if you feel fine.**
